

GLPI database

context

dit document beschrijft de gLPI database.

algemeen

- **naam:** glpidb
- 474 tabellen met prefix **glpi_**
- schema: [DB schema](#)
 - **Table references:** toont hoe tabellen verbonden zijn.

database reset

- **verwijder** de bestaande marketplace **modules**.
- maakt alle tabellen leeg en herinitialiseert de database

```
su www-data
cd /var/www/html/glpi
php bin/console glpi:database:install --force
```

A terminal window screenshot showing the execution of the command 'php bin/console glpi:database:install --force'. The output displays a table with database configuration details: Database host (localhost), Database name (glpidb), and Database user (glpiuser). Below the table, it asks 'Do you want to continue? [Yes/no]Yes' and shows a progress bar at 7% with the text 'Creating database structure..'.

```
www-data@glpi:~/html/glpi$ php bin/console database:install --force
+-----+-----+
| Database host | localhost |
| Database name | glpidb   |
| Database user | glpiuser |
+-----+-----+
Do you want to continue? [Yes/no]Yes
[=>-----] 7%
Creating database structure..
```

- meld aan op glpi met gebruiker **glpi**
- volg de [configuratie](#)
